

**BIOPROTON PTY LTD**

A.C.N. 059 093 417

Trade Marks "Natuzyne®"  
"Gitadyl®"

Australian Business Number 19 059 093 417

## MORE ENERGY

### NATUZYME INCREASES ENERGY AVAILABILITY IN FEED

- **NATUZYME**                      **ENERGY  
BOOST 5-12%**

**DOSE RATE: 350 - 1000 GM / TONNE FEED**

## MORE AMINO ACIDS

### NATUZYME INCREASES AMINO-ACID AVAILABILITY IN FEED

- **LYSINE** +10%
- **METHIONE** +10%
- **CRUDE PROTEIN** +10%

## **LESS ANTIBIOTICS ARE NEEDED**

**IF FEED CONTAINS MULTIFUNCTIONAL  
NATUZYME, THEN**

- **IMPROVED ANTIBIOTIC ABSORPTION  
(25-50%)**
- **LESS VISITS BY VETS TO GROWERS  
AND FARMS**

### ACCELERATED ANTIBIOTIC ABSORPTION

Antibiotic levels in the blood increases very rapidly with the addition of NATUZYME in the feed.

## **NATUZYME ENZYME SUPPLEMENT OPENS WINDOWS OF OPPORTUNITIES TO THE NATURAL PHYTASE (PHOSPHOHYDROLASE) OF FEEDSTUFFS**

- **phytase occurs in large numbers of vegetable feedstuffs such as wheat, rye, barley, etc.**
- **about two thirds of the phosphorus (P) present in the seeds of many vegetable feedstuffs (cereals, oilseeds etc.) is bound in the form of phytin**
- **poultry and pigs are utilizing phytin phosphorus very inadequately - if at all - because they lack the enzymes that are necessary for its utilization**
- **when using the multifunctional Natuzyne the utilizability of the total phosphorus in feed will improve - more phosphorus will be available for absorption in the small intestine**
- **and lower the phosphorus (P) burden to the environment**
